

Jack Shadbolt

Margaret Clay

George Grube

Honorary Degrees for Librarian, Artist, Scholar

The University Senate will confer three honorary degrees at the Tenth Annual Convocation May 26 at Memorial Arena.

Margaret Jean Clay, public librarian; artist Jack Shadbolt; and George M.A. Grube, scholar and lecturer, will receive the degree of Doctor of Laws (*Honoris Causa*) in recognition of outstanding contributions to their disciplines.

Miss Margaret Clay joined the staff of the Victoria Public Library in 1913, and in 1924 was appointed Chief Librarian. She was a founding member of Victoria College Extension Services and a charter member of the Canadian Library Association. From 1948 to 1966 she served as a member of B.C.'s Public Library Commission.

Jack Shadbolt, artist, is a graduate of Victoria High School, Victoria College and the Provincial Normal School, who for the past 20 years has been one of the major Canadian artists and a significant figure in the art world. In 1970, he was honored by a retrospective show in the National Gallery, Ottawa, which toured major galleries across the country.

George Maximilian Anthony Grube who has taught and directed research in Canada for over 40 years, has an impressive scholarly output including books on Greek philosophy, drama and literary criticism which are almost "required reading" for classical students. In his early years, he graduated in Classics at Cambridge University and taught for five years at the Univer-

sity of Wales. In 1928 he was appointed Professor of Classics at Trinity College, University of Toronto, and three years later became Head of his Department, a position he retained until his retirement.

Since retiring, he has been in great demand as Visiting Professor, and held that post at the University of Victoria in the year 1969-70.

Neuropsychology Workshop

The Eighth Annual Neuropsychology Workshop will be held March 17 and 18 in MacLaurin 144. Theme of the Workshop, co-sponsored by the Department of Psychology and the Department of Health and Hospital Insurance of the Provincial Government, will be "Neuropsychology of Aging".

Registration, \$1 per person, is limited to 330 and should be completed in person or by mail before March 9. Contact the Neuropsychology Workshop, Department of Psychology or call Local 235.

A special movie, "Mind of Man", will be shown at 8 p.m. Friday, March 16, in Elliott 168 and is open to the public.

Saturday — 9 a.m. to 5 p.m.

Dr. Marcel Kinsbourne, "Developmental Neuropsychology"

Dr. Carl Eisdorfer, "Neuropsychology of Aging"

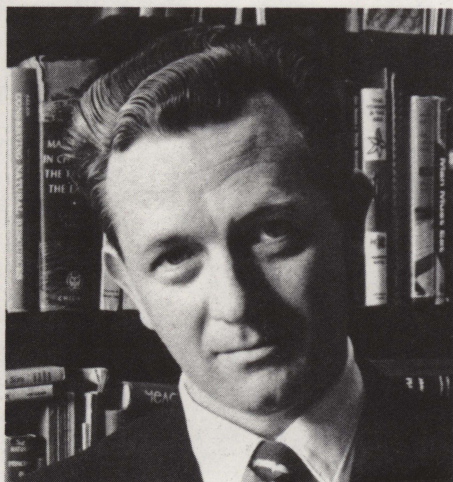

Sunday — 10 a.m. to 3 p.m.

Drs. Kinsbourne and Eisdorfer—"Perception, learning, intelligence, specific skills and psychopathology".

Geographer Returns from Asia

Dr. Derrick Sewell, Economics and Geography, has just returned from South East Asia where he was acting as advisor for the United Nations on a major water resources programme.

He was invited to advise the Indian Government on the potential effects a proposed national water grid which would transfer huge quantities of water from Northern India to the Central and Southern region.

Itinerant Teachers

The Itinerant Schoolmaster is the title of a just-published book by Dean George Pedersen, Faculty of Education.

The book, Dr. Pedersen says, "is an attempt to determine the important factors that apply to the supply and demand for teachers. It examines the economics of education, and is based on the use of human capital in the teaching profession."

His findings were reached after completing a study of 76,000 teachers in Michigan State, begun in 1966 while Dr. Pedersen was at the University of Chicago.

Although the study was done in the U.S., several aspects can be applied to Canada both provincially and nationally. For example, the study shows that teaching is an extremely high turnover profession: Out of every 100 who start teaching, only 20 remain after five years.

The study, published by the Midwest Administration Centre, University of Chicago, is considered the most extensive study of its kind ever undertaken. A future study planned by Dr. Pedersen will look at the situation in B.C. and Canada.

The grid, Dr. Sewell says, "would be the largest engineering project attempted anywhere in the world. It would involve the pumping of water from the Ganges up to the Deccan Plateau so that it would flow South."

Dr. Sewell also advised the government of Tamil Nadu in Madras on the establishment of a water resources policy institute, the first of its kind in India, which would bring together people in different disciplines from several countries. The institute would assist the government in planning water policies and would also act as an advising agent to the Indian government.

While in Asia Dr. Sewell also attended a United Nations seminar in New Delhi on water resources administration, where he gave one of the keynote addresses on water resources planning in lesser-developed countries.

Another major project on which Dr. Sewell is advising is the Mekong River development. Canada was the first of 30 countries to participate in the development, spending \$1,400,000 for aerial surveys, and additional money on fisheries studies.

The Vietnam war held up development but the four Mekong countries—Thailand, Laos, Cambodia and South Vietnam—continued to co-operate even when they were not on diplomatic speaking terms, Dr. Sewell pointed out.

North Vietnam is not opposed to the development, he said, and could benefit by applying the new source of hydro power to its industrial needs. South Vietnam would benefit from resulting irrigation projects, "and the feeling is that the development could become the real unifying force for north and south", he said.

The UN has asked Dr. Sewell to continue as consultant on the hydro and irrigation projects.

Appointments

Three government appointees have been named to the University Senate. They are Mrs. Dorothy Gislason, Mrs. Barbara Corry and Chief Philip Paul. Newly elected members are Dr. K.R. Thornton and Dr. K.O. Wright.

Recently appointed to the Board of Governors were Larry Ryan and Dr. Trudy Friesen.

German Books

A display of 3,500 German books covering a vast range of subjects from anthropology to zoology will be presented by the Department of Germanic Languages and Literature from March 6 to 10 inclusive in the lobby of the MacLaurin Building.

The books, including valuable first editions, facsimile editions and modern publications, have been collected by the Association of German Book Publishers, and have been exhibited throughout North America. Most are in German but approximately 400 are in English. The display will be open from 8 a.m. to 10 p.m.

Study Completed

The report of a study of individualizing instruction has recently been completed by Dr. Charles Galloway, Dr. Norma Mickelson and Leslie Peake, Education, & the staff of McKenzie Elementary School.

The four-year project was funded by the Educational Research Institute of B.C. in the amount of \$56,000. It investigated the value of specific behavioral objectives for individual instruction.

The researchers and teachers were attempting to find methods which would enable teachers to meet differences of individual children even in larger classes. They worked from grades one to seven.

Anthropology Lecture

Dr. Ward H. Goodenough, who is noted for his anthropological and linguistic field research in Micronesia and Melanesia, will speak at a public lecture sponsored by the Department of Anthropology and Sociology.

Subject of the lecture, to be held Friday, March 9 at 8 p.m. in Cornett 267, will be "Anthropological Views of Religion".

Professor Goodenough is currently Professor of Anthropology at the University of Pennsylvania and Curator of General Ethnology in the University Museum. He has taught at the University of Wisconsin, Cornell University, University of Hawaii and at Yale, where he received his doctorate.

His visit to Victoria is supported by a grant from the Leon and Thea Koerner Foundation.

Dance Workshop

Well-known dance teachers, including Winnipeg Ballet founder Dr. Gweneth Lloyd, attracted a record number of students and teachers to a two-day workshop on campus last weekend.

The workshop, first of its kind to be held on Vancouver Island, was enthusiastically supported by teachers and students from the lower mainland, Salt Spring Island and many up-Island centers as well as from local schools.

Saturday was teachers' day with special instruction in creative dance for primary and elementary grades by Miss Boorman and for secondary levels by Mrs. Glenise Barber, Victoria.

Award Received

A study by Dr. Norma Mickelson, Education, has been selected for this year's Outstanding Dissertation of the Year Award by the International Reading Association.

Robert Emans, the Association's research awards committee chairman,

writes that the award places Dr. Mickelson "among a very small, select group of scholars".

The Association, a professional organization for teachers of reading, chose Dr. Mickelson's dissertation on "Associative Verbal Reading (a/v/e): A measure of language performance and its relationship to reading achievement.

It was based on a study made with nine-year-old children in the three school districts of Southern Vancouver Island.

Facets of Nietzsche

Professor Erich Heller, a distinguished analyst of modern thought and literature will lecture at the University, Wednesday, March 7 at 12:30 p.m. in MacLaurin 144. His subject will be "The Three Metamorphoses of Zarathustra: Facets of Nietzsche's Intellectual Biography and the Apotheosis of Innocence".

Professor Heller was born in Bohemia and studied at Prague and Cambridge, England, where he obtained doctorates. He later taught at the London School of Economics, Cambridge University and the University of Wales, and is now Avalon Professor of Humanities at Northwestern University. His publications include *The Disinherited Mind* and *The Artist's Journey Within*.

Faculty News

PHYSICS

Dr. Walter M. Barss addressed the February meeting of the Institute of Power Engineers, speaking on acoustic problems in heating and ventilating systems. To illustrate how self-excited oscillations may occur in heating systems, he demonstrated a sound generator driven by a small gas flame.

Dr. K.R. Kendall, Dr. R.H. Price and graduate students Kouichi Nakano, P.W. James, R.D. Fyvie, and D.M. Smith from the TRIUMF Group presented papers at the Western Regional Nuclear Conference in Vancouver, February 23 and 24.

HISTORY IN ART

Dr. Siri Gunasinghe has published a paper on "Buddhist Sculpture of Ceylon" in the

current issue of *Arts of Asia*, Hong Kong. The paper attempts to identify some of the details that emphasize the particular character of the Buddhist art of Ceylon as compared to the prevailing practices in other Buddhist countries.

GEOGRAPHY

Dr. David C.Y. Lai was guest speaker at the Annual General Meeting of the Royal Commonwealth Society on February 26. His topic was "The Urban Development of Hong Kong". Dr. Lai also presented a paper on "The Agrarian Expansion in the Frontier Regions: Cotton in Sinkiang" at the Northwest Regional Seminar on China, University of Washington on February 24.

LINGUISTICS

Dr. J.F. Kess will present a paper on "The Use of Focus in Philippine Languages" at the Eighteenth Annual Conference of the International Linguistic Association in Arequipa, Peru, March 9 - 13.

ATHLETICS

A new programme *University Sports* starts today at 4:45 p.m. on radio station CJVI, highlighting sports news from the campus. The programme will be heard every Friday afternoon at the same time, sponsored by Gondola Pizza.

SLAVONIC AND ORIENTAL STUDIES

Dr. Z.B. Juricic will present a paper entitled "A.N. Ostrovsky's contribution to the Croatian stage" to the forthcoming meeting of the Pacific Northwest Conference on Foreign Languages to be held at Orcas Island, Washington, May 4-5.

Calendar of Events

FRIDAY 2

- 12:30 pm Music at Noon: UVic Brass Ensembles in MacLaurin 144
- 1:30 pm Professor Andrew Streitwieser, Jr. (University of California) will speak on "Uranocene: an f-Orbital Aromatic System" in Elliott 160
- 3:30 pm Professor Martin C. Needler (University of New Mexico) will speak on "The Role of the Military in Latin America" in Cornett 373
- 3:30 pm Dr. Charles Tolman (Psychology) will speak on "Critical Psychology Again" in Cornett 170
- 8 pm Music: Lanny Pollet, flute degree recital in MacLaurin 144
- 8 pm Evening of poetry and music by members of the English and Music Departments in the Phoenix Theatre

SATURDAY 3

- 1 pm Field Hockey: Vagabonds vs Evergreens at the University
2:30 pm Rugby: Vikings vs James Bay Athletic Association at MacDonald Park
7 pm Film: "The Little Island" and "Putney Swope" in MacLaurin 144
8 pm Evening of poetry and music by members of the English and Music Departments in the Phoenix Theatre
9:15 pm Film: "The Little Island" and "Putney Swope" in MacLaurin 144

SUNDAY 4

- 1 pm Rugby: Jutes vs Castaways at Carnarvon Park
2:15 pm Soccer: Vikings vs Nanaimo at the University
8 pm Evening of poetry and music by members of the English and Music Departments in the Phoenix Theatre

MONDAY 5

- 1:30 pm Dr. Robert Reid (Biology) will speak on "Historical Genetics" (Science 300) in Elliott 060
7:30 pm Intramurals: Men's basketball in gym
8 pm Dr. Pratapaditya Pal (Curator of Indian and Islamic Art, L.A. County Museum of Art) will speak on "Bronzes of Kashmir" in Elliott 168

TUESDAY 6

- 1:30 pm Dr. J.M. Michelsen (Philosophy) will speak on "The Existential Hero" (Liberal Arts 305) in Elliott 168
4:30 pm Dr. P.M.H. Edwards (French) will give a public pianoforte recital in MacLaurin 144
7:30 pm Miss Beverley Noton will speak on "Selected Aspects of Public Health" and Douglas Colter will speak on "Our Daily Lead" (Bacteriology and Biochemistry) in Craigdarroch 206-7
8 pm Badminton: All faculty and staff welcome in the gym
8 pm Dr. Pratapaditya Pal (Curator of Indian and Islamic Art, L.A. County Museum of Art) will speak on "Buddhist Art of Nepal - I" in Craigdarroch 208-9

WEDNESDAY 7

- 12:30 pm Professor Erich Heller will speak on "The Three Metamorphoses of Zarathustra: Facets of Nietzsche's Intellectual Biography and the Apotheosis of Innocence" in MacLaurin 144

- 1:30 pm Dr. Derek Styles (Biology) will speak on "Modern Genetics" (Science 300) in Elliott 060
8 pm Music: The Juilliard Quartet in MacLaurin 144
8 pm Dr. Pratapaditya Pal (Curator of Indian and Islamic Art, L.A. County Museum of Art) will speak on "Buddhist Art of Nepal - II" in Lansdowne 203-4

THURSDAY 8

- 12:30 Dr. S.B. Chandler (University of Toronto) will speak on "Time and the Romantics" in MacLaurin 107

FRIDAY 9

- 12:30 Music at Noon: Student Song Recital in MacLaurin 144
8 pm Dr. Toru Mori (Osaka University, Japan) will speak on "36 Famous Poets in Japanese Painting" in Elliott 168
8 pm Professor Ward H. Goodenough (University of Pennsylvania) will speak on "Anthropological Views of Religion" in Cornett 267

SATURDAY 10

- 1 pm Field Hockey: Sandpipers I vs Vikettes at Oak Bay High School
1 pm Rugby: Oak Bay Wanderers vs Saxons at the University
2:30 pm Field Hockey: Vagabonds vs Rebels Grey at the University
2:30 pm Rugby: Norsemen vs Oak Bay Wanderers at Windsor Park
7 pm Film: "The Go-Between" in MacLaurin 144
9:15 pm Film: "The Go-Between" in MacLaurin 144

SUNDAY 11

- 1 pm Rugby: Cowichan vs Jutes at the University
2:15 pm Soccer: Vikings vs Roadrunners at the University
4 pm Music: Fifth of Faculty Recital Series in MacLaurin 144

MONDAY 12

- 1:30 pm Dr. Robert Reid (Biology) will speak on "More Evolution" (Science 300) in Elliott 060
8:15 pm Dr. Keith R. Dixon (Chemistry) will speak on "Chemical Energy" in Elliott 168 (University Extension Association)

Next Deadline

Friday, March 9 at 12 noon
Published Every Second Friday
By University Relations Office
Editor: Maurice Cownden

TUESDAY 13

- 1:30 pm Debate: "The Unconscious", Dr. Loren Acker, Dr. Edward Tryk, Dr. Bram Goldwater, Dr. Charles Tolman, Dr. Gordon Hobson (Liberal Arts 305) in Elliott 168
4:30 pm Music: University Brass Ensembles in MacLaurin 144
7:30 pm Janna Van Der Sluys will speak on "Autoimmune Disease" (Bacteriology and Biochemistry) in Craigdarroch 206-7
8 pm Badminton: All faculty and staff welcome in the gym

WEDNESDAY 14

- 1:30 pm Dr. Robert Reid (Biology) will speak on "Evolving Ecosystems" (Science 300) in Elliott 060
7:30 pm Senate meets in Cornett 112
8 pm Music: Allison Marshall, piano degree recital in MacLaurin 144

THURSDAY 15

- 12:30 pm Dr. Georgio Papini (University of Saskatchewan) will speak on "Detection of Gravitational Waves" (Physics) in Elliott 168
4:30 pm Gary Geddes will read from his own poetry in Cornett 163
7:30 pm Intramurals: Men's basketball in gym
8 pm Linguistic Circle of Victoria meeting. Dr. John Woods (Philosophy) will speak on "Paradox and Mysticism: the Limits of Language" in Commons Block 208-9
